General Information

ROMAI was founded in 1992. It is a non-profit scientific association whose members are mathematicians, physicists, engineers, chemists, biologists, economists, and other scientists from Romania, Republic of Moldova, and some other countries. ROMAI encourages studies on applied mathematics and organizes annually, since 1993, the Conference on Applied and Industrial Mathematics (CAIM).

Universities in Iași: the "Al.I. Cuza" University - <http://www.uaic.ro>, (the oldest university in Romania, founded in 1860), the "Gh. Asachi" Technical University, the "Grigore T. Popa" University of Medicine and Pharmacy, the University of Agricultural Sciences and Veterinary Medicine "Ion Ionescu de la Brad", the Academy of Art, the Catholic Theological Institute.

Iași is the most important historical, economic, and cultural center in northeast Romania. In this area, the archaeological researches have discovered traces of the ancient Culture of Cucuteni, flourishing about 5000 years ago. Iași City is documentary certified from the 14th century during the reign of Alexandru cel Bun. The name of Iași City is bound up with the so-called "golden period" of the Romanian culture. At the beginning of the 19th century, here was established the first high education school in Romanian.

In 1860 Alexandru Ioan Cuza, the first ruler of the United Principalities of Moldavia and Wallachia, founded in Iași the first university in Romania. Many Romanian personalities lived, studied, worked and created in Iași. The city is well known as a major cultural city.

CAIM 2010 Objectives
